

USC PRICE SCHOOL OF PUBLIC POLICY  
URBAN GROWTH SEMINAR SERIES

FUTURE OF SUSTAINABLE CITIES:  
PLANNING, POLICY, AND TECHNOLOGY

CO-SPONSORED BY  
THE USC CENTER FOR SUSTAINABLE CITIES

# China's Future Green Cities

## Matthew Kahn

Professor, UCLA Institute of the Environment,  
Department of Public Policy, and Department of Economics

Matthew E. Kahn is a Professor at the UCLA Institute of the Environment, the Department of Economics, and the Department of Public Policy, and is a research associate at the National Bureau of Economic Research. Before joining the UCLA faculty in January 2007, he taught at Columbia and the Fletcher School at Tufts University. He has served as a Visiting Professor at Harvard and Stanford. He holds a Ph.D. in Economics from the University of Chicago. He is the author of *Green Cities: Urban Growth and the Environment* and the co-author of *Heroes and Cowards: The Social Face of War*. His research focuses on environmental, urban, real estate and energy economics.

Matthew Kahn has been busy presenting at the Los Angeles Times Festival of Books, New York University Rudin Center, The World Bank, the Denver American Economic Association Conference, the London School of Economics, and on numerous radio appearances such as the American Public Media, Vox Talks (UK), and KALW San Francisco. His article "Celebrating \$4 Gas" was in the Harvard Business Review in CNNMoney.com, and in the New York Times. In addition to serving as the co-editor of numerous journals, including the Review of Environmental Economics and Policy, Journal of Regional Science, and Journal of Urban Economics, the prolific writer and Luskin Scholar Matthew Kahn regularly contributed to the *Christian Science Monitor*, *Huffington Post* and the *Los Angeles Times*. In addition, his studies— on topics ranging from energy conservation to household carbon emissions in Chinese cities compared to U.S. cities— were highlighted in *The New York Times*, *The Economist*, and *American Public Radio*, among others. Professor Kahn has also served on a National Science Foundation multidisciplinary advisory panel and the California Air Resources Board's External Review of the Economic Effects of AB3.
